# What is Strategic Sourcing?

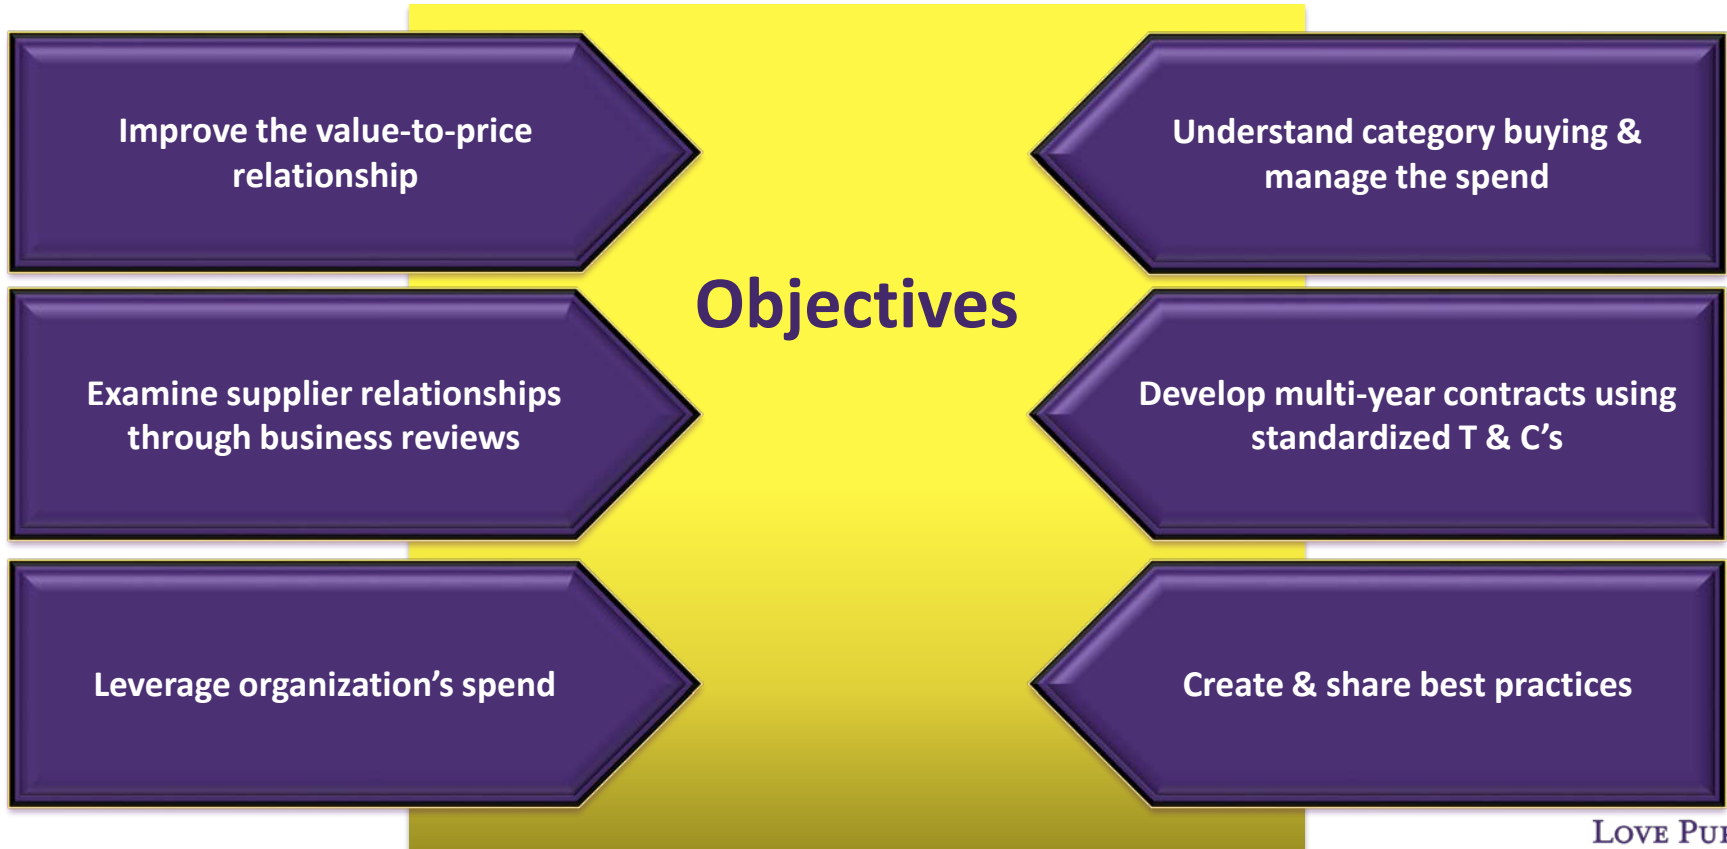

Procurement process that continuously improves and re-evaluates the purchasing activities.

What it is	What it is NOT
Getting the best product/service at the best value	Getting the cheapest product/service
Addressing all areas for savings	Focused on “beating up suppliers”
Decisions based on fact analysis and market intelligence	Decisions based on opinion, unjustified preference, or complacency
A continuous process	A one-time project or purchase

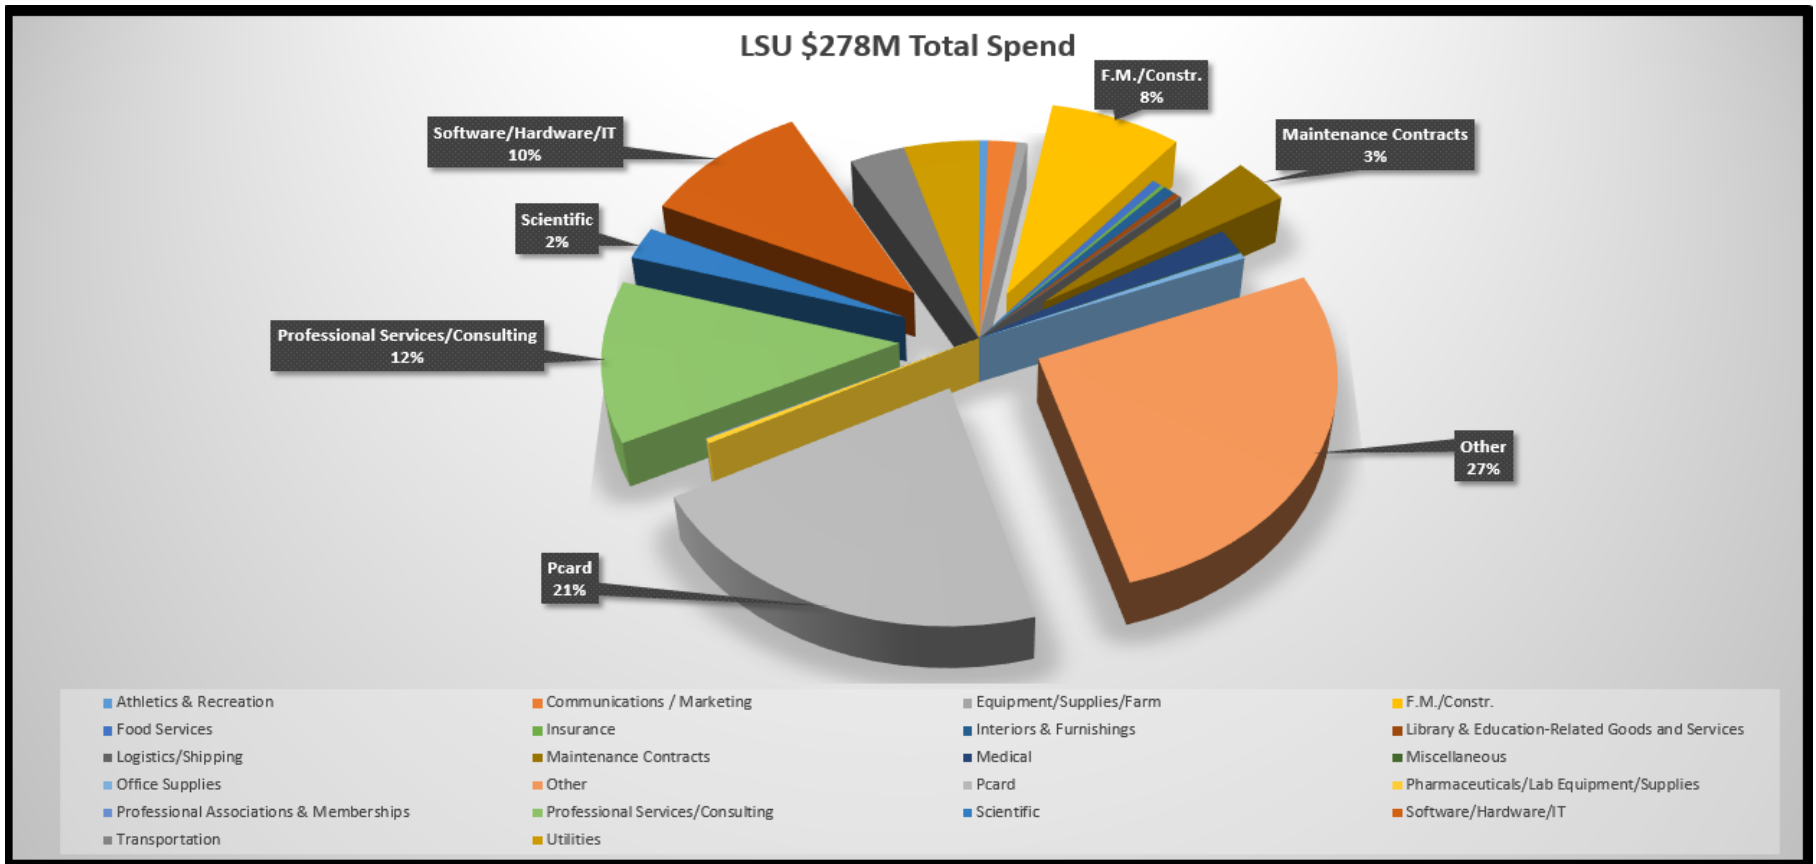

# Objective of Strategic Sourcing

To reduce overall cost while maintaining or improving quality.
